PodShop Announces New Version of iDrops, Free Shipping

Council Bluffs, Iowa - December 7, 2005 - PodShop, makers of specialized accessories for portable audio electronics and computing devices, today announced the immediate availability of their updated iDrops® product - an all-in-one cleaning, polishing, and scratch removing solution specifically designed for use on the plastic/acrylic surfaces of Apple's iPod (all models), iBook, eMac, and iMac (G3/G5), Mac mini and Power Mac (G3/G4).

iDrops is a two ounce bottle of "liquid health" for plastic/acrylic surfaces that features a dropper top, allowing easy, mess-free use for helping to repair and restore your blemished, scuffed, or scratched product. iDrops can also be used on the plastic/acrylic surfaces of CD/DVD media, cell phones, Game Boy, PSP, and numerous other items.

iDrops - introduced in November 2004 - features improvements throughout the entire product, including updated iDrops solution, bottle, dropper, and label. Priced at \$14.95, iDrops is available from the company's website at <http://podshop.com/idrops.html>.

PodShop also announced today that they will be offering free worldwide shipping through December 21st.

###

PodShop was founded in 2002 to provide specialized accessories for portable audio electronics and computing devices.
